ITTEHAD

ALUMINIUM INDUSTRIES

INTRODUCTION

Ittehad Aluminum Industries remains the front runner with 16 years of experience in the market of Aluminum in Pakistan. During this period numerous achievements, challenges and obstacles have been experienced that gives our company a rich & diverse knowledge base enjoyed by a pioneer. These experiences are the basic foundation for Ittehad Aluminum Industries to grow and develop into one of the largest player in national Aluminum sector from mainstream to downstream production. In Ittehad Aluminum Industries life, the synergy of integrity, energy and intelligence has become the power of each of Ittehad Aluminum Industries family members and will be inherited from generation to generation as the core work ethic value of our employees. Perfection of taste, kinship and natural working environment has also become a trademark in the work culture in Ittehad Aluminum Industries.

ITTEHAD **ALUMINIUM INDUSTRIES**

VISION

To be a Premier and Integrated company in the Aluminum value chain with strategic presence in both domestic & global, Metals and Energy sectors.

MISSION

To sustainably grow multi-fold in Aluminum business , integrate state of the art procedures , promote diversification, while continuously improving efficiency and business practices ,enhancing value for all stakeholders.

AIM

The aim of Ittehad Aluminum Industries is the most efficient use of Aluminum Materials, effective saving and above all high quality Aluminum product to serve domestic, commercial, government & semi-government sectors . In shaa ALLAH we aim to maintain our lead position in Aluminum Processing Industry.

ITTEHAD
ALUMINIUM INDUSTRIES

CORE VALUES

BENEFITTING STAKEHOLDERS

We provide our customers, suppliers and other stakeholders with utmost level of value, service and satisfaction.

EXCELLENCE AND QUALITY

We ensure that our products, manufacturing & business processes adhere to the highest quality levels and standards.

SUSTAINABILITY

We relentlessly pursue sustainable practices and create a positive impact on the communities we engage with.

TRUST & INTEGRITY

We conduct ourselves with dignity, integrity, equity, transparency and accountability to build trust.

ITTEHAD
ALUMINIUM INDUSTRIES

OUR STRENGTHS & PROCESS HIGHLIGHTS

QUALITY

Sourcing raw materials from world renowned manufacturers ensures only the highest quality products reach end consumers.

SERVICE

From after-sales service to raw material analysis, we strive to achieve the highest level of satisfaction for our growing clientele in various industries.

TRUST

With over three decades of experience we garnered long lasting relationships with customers and principals from the government, semi government & private sector.

MANUFACTURING

Ittehad Aluminum Industries uses superior quality billet, made of alloy 6063. The Billet is internationally acclaimed Aluminum raw material meeting standards of quality Aluminum profiles.

PRODUCTION FACILITY

Our production equipment includes CNC Milling Machines, Conventional Milling Machines, EDM Machines, EDM Wirecut, EDM Drilling, Radial Drilling, etc We have complete in-house Heat Treatment facility that enables us to supply dies in short lead time.

BILLETS PLANT

We use superior quality billet, made of alloy 6063. Our billets are produced in-house to provide highest productivity on our presses, high flexibility on mechanical properties (special alloy) and better quality control. Before casting, the molten metal is treated to ensure it is clean and free of excessive hydrogen contamination. Ittehad Aluminium Industries extrusion ingot is applying only primary aluminium ingot and virtually free of dross or any secondary external scrap. The internal microstructure is modified through a controlled thermal treatment known as homogenizing process. These billets are 100% ultrasonically inspected. This ingenuity and technical expertise is what highlights our unique presence among our competitors.

EXTRUSION PLANT

Our extrusion facility was first established in 2002 with the main focus of manufacturing and distributing a comprehensive range of aluminum sections that are used for commercial, residential and Industrial purposes. It is equipped with complete facilities in billet furnace, extrusion presses, design shop, tool room, surface finishing, fabrication etc and produce high quality aluminum extrusion for global buyers. The Unit design provides and offers a complete solution for the needs of architects, builders and consultants for high class aluminum door, window, partitions and structural glazing etc.

DIES FACILITY

Experience coupled with expertise gives us the edge in the design process. All our dies are designed utilizing the latest computer aided design software. Our designs are based on years of accumulated experience as well as feedback from our clients.

We apply the latest CNC Technology for dies manufacturing.

ANODIZING PLANT

Ittehad Aluminum Industries offers an in-house anodizing and finishing facility where you can get high-performance anodized aluminum profiles and any anodize color (Natural, Brown, Bronze, Champaign, Black, etc) ensuring all products to be delivered in the best possible quality.

Our Caustic Etch anodizing process delivers a superior finish that will last for decades. Ittehad Aluminum Industries in-house facility helps our clients to remain cost-efficient by avoiding scrap overages and freight damage that might incur when working for multiple vendors.

POWDER COATING PLANT

Ittehad Aluminum Industries had been "Approved Applicator" of Jotun, meaning that Ittehad Aluminum Industries is qualified to provide products with warranty requirement such as government & corporation projects. We take pride in our ability to offer widest range of colors to meet the needs and expectations of all our clients.

FABRICATION FACILITY

To keep the competitive edges of all our clients, Ittehad Aluminium Industries provides a specially designed OEM Facility that focus on fulfilling any fabrication requirement of aluminum extrusion profiles. Our facility consist of punching machines, precision cutting machines, CNC routers and other various types of fabrication machines.

UPVC FITTING

When purchasing new or replacement Windows and Doors, it is important you make the right decision on style, frame and material. uPVC, also known as Un-plasticized Polyvinyl Chloride, is a low-maintenance building material used as a substitute for painted wood, mostly for window frames when installing double glazed in new buildings, or to replace older single glazed windows. UPVC material is a cheaper alternative to expensive hardwood timber and aluminium. It is a popular material due to its durability & it being a cost-effective option.
